## 1. 3 movies for holidays.

During the holidays, you don't have to spend all your time outside. Watching movies can be fun too. Here are three great movies to enjoy:

- **The Summer I Turned Pretty**

Plot Summary: Belly and her family go to a beach house in Cousins every summer. Every year is the same until Belly turns sixteen. This summer, she starts to notice the boys she grew up with in a new way, and they notice her too. It's a summer of first love, heartbreak, and growing up.

Why Watch It? This movie shows strong friendships and the fun and challenges of growing up. It's a touching story that many teenagers can relate to.

Rating: 3.5/5

- **Enola Holmes**

Plot Summary: On her sixteenth birthday, Enola Holmes finds out her mom is missing. She decides to find her mom by herself, while her older brothers, Sherlock and Mycroft, have other plans for her. Enola solves puzzles and fights for her right to be herself.

Why Watch It? This movie is exciting and teaches about history and women's rights. Enola is a smart and brave character who inspires us to be ourselves.

Rating: 4/5

- **Emily in Paris**

Plot Summary: Emily, a twenty-year-old from Chicago, gets a job in Paris. She doesn't speak French and faces many problems, including work challenges and love issues. Emily has many adventures and learns a lot about life.

Why Watch It? This movie shows what adult life is like, including the fun and the tough parts. It's also set in beautiful Paris, making it fun to watch.

Rating: 3.5/5

So, if you're looking for something to do during the holidays, these movies are great choices. Grab some popcorn, get comfy, and enjoy your holiday movie time!

## 2. Holiday is coming.

I would like to write a few words about my favourite week during holidays. It is the when me and my family travel to Mrzeżyno. We drive there in the first week of summer holidays. I am looking forward to go there because there is a beautiful local beach. We often ride bikes in Mrzeżyno. We go to the beach every day and sometimes we go there at 10:00 and get back at 23:00, after some break for lunch! There is a fantastic playground in our hotel and fabulous meals in the hotel restaurant. In the city center of Mrzeżyno there is a delicious coffee and waffles corner. We usually go there with my parents friends and their sons, so me and my sister have company for beach ball, sand castels constructions and different kinds of games. I always have a great time there and I wait for this week for the whole year. There is of course one condition it all works, which means weather! I hope for nice sunny week this year.

## 3. The best place to visit during vacation

One of the best places to visit during summer vacation is Spain, especially the city of Barcelona. Barcelona has many fun things to see and do. You can start by visiting the famous Sagrada Familia, a big, beautiful church designed by Antoni Gaudí. It looks amazing!

Another place is Park Güell. The park has colorful mosaics and pretty gardens. It's great for walking and taking pictures.

In the city, you can walk along La Rambla, a busy street with many shops, restaurants, and street performers. It's a great place to see local life and try tasty Spanish food.

For some relaxing time, go to Barceloneta Beach. It's close to the city, and you can swim, sunbathe, and play beach games. In the evening, don't miss the Magic Fountain of Montjuïc. The fountain has a wonderful light and music show.

I recommend visiting Barcelona. You will have an amazing summer vacation!

#### 4. My dream trip!

In this article I want to tell you about my dream trip. I want to travel to Italy very much.

I have never been there but it is my dream since I was a child. What I would like to visit the most is Rome, because there is a Colosseum – a huge, 2 hektares area amphitheater that was built in a 1st century. But it is only one of the reasons why visiting Italy is my aim. In my opinion Italy is the most beautiful country all over the world. There is the most beautiful architecture I've ever seen (of course only on photos in internet). Builds which are in this country are unique, specially those which are on the cliffs. There are many amazing sceneries with pretty nature views too. Every water tank looks there unreal for example Tyrreńskie sea with a big beach, view on mountain, cliffs and builds on cliffs. Mountains in Italy are one of the most beautiful mountain rangers in Europe. There are Alpy and Apeniny mountains. In winter tourist come there for skiing, because there are very good conditions for it with many ski lifts. The highest peak is Mont Blanc (4807 high), it is the highest point in Italy. This country have also many white buildings with big windows. Between buildings there are narrow, atmospheric streets, full of plants. I love such a cool climete place. In addition there are many big, beautiful fountains. The most famous fountain in Italy is di Trevi fountain. It looks like a huge 3D image with the good of seas Neptune and tritons.

I love Italy's cuisine too. All types of pizza and pasta are my favourite type of food,I can eat it every day. Besides I would like to taste real Italy's pizza with olive oil. I'm sure that pizza made by Polish isn't as tasty as Italy's. I think Italy's ice-cream can be the most tasty dessert all over the world.I know that Italy cuisine consist a lot of tomatos, olive

oil, many types of fish and seafoods. In my opinion it's interesting,good and healthy diet.

I think everyone should visit this country and try their cuisine, see their architecture, beautiful views, beaches and walk along the narrow streets. Italian weather is always good so I would be very happy to spend there few days, weeks or even months.
